

Call for Tutorial Proposals for ICCE 2024

The Technical Program Committee is announcing a call for Tutorials for the 2024 ICCE. Tutorials can be state of the art reviews or emerging research applied to Consumer Technology. The tutorial areas of specific interest are:

- Human-Machine Interaction and User Experience (HMI)
- Internet of Things, Internet of Everywhere, Edge Computing (IOT)
- Machine learning, Deep learning and AI in CE (MDA)
- Quantum in Consumer Technology (QCT)
- Security and Privacy of CE Hardware and Software Systems (SPC)

PROPOSAL SUBMISSION

Proposal submissions should be submitted as a single ppt or pdf file. **Proposals are invited for one or two hour(s) Tutorials to be presented on January 5, particularly related to the conference themes.** For submission, please send the initial version of the tutorial presentation which includes the following information:

- Title for the proposed tutorial presentation
- Name, affiliation, and email address of the tutorial speaker
- A brief biography of the tutorial speaker (up to 200 words)
- **Outline and Content of the tutorial presentations (Draft)**

Submit proposals (Title, Abstract, short Biography, and choice of time slot) to icce2024-Tutorial@icce.org

and

Tutorial Chair Associate Prof. Lauren Christopher < Email: lauchris@iupui.edu >
